

### **Introduction**

At St Peter's School, we encourage and value parental feedback in order to help us to identify areas where we are performing well and ongoing areas for improvement.

The following data was collected using online surveys sent to all parents at the end of each school year. The questions have remained the same each year.

The summary statements under each question show the proportion of parents, that responded to the survey, who agreed or strongly agreed with each statement.

The graphs show the three-year trend for each answer.

The information obtained from the surveys has been used to inform school improvement plans,
