

Dear Parents/Carers,

These activities are designed to keep children busy and enjoying learning, while providing flexibility for parents. We realise that the family may need to share laptops or mobiles so only plan to do what you can. Everyone's homes are different so the activities we suggest are just a guide to help. We recognise that parents may be working, caring for sick family members or looking after little ones so choose activities suitable for you and your family situation.

While school is closed, children will continue learning from home using the wide range of resources available on our school website. We will also be accessing and uploading work through either EExAT (Nursery & Reception) Seesaw (Years 1-4) and Google Drive/Google Classroom (Years 5 &6).

There will be plenty of tasks from a wide variety of curriculum areas including history, geography and science, as well as physical activities, to keep your child busy and working hard. We have deliberately set up a simple, flexible system on our website that is easy for you to use at home. We know you will be busy working from home, looking after siblings or other members of your family.

We suggest setting up a routine for your child where they do the suggested learning activities each day. We do not expect parents to be teachers and we are not going to be checking every day to see how much work has been done! The activities guide you and your child to be able to learn together or on their own.

### **Morning Activities**

There are 3 activities suggested for the start of every day.  
The activities are the same every day.

### **Activity of the Day**

There is 1 daily activity suggested.  
The daily activity is different every day.

### **Afternoon Activities**

Choose activities from the suggestions.

### **Regularly practising spelling and times tables is on-going**

You could record your scores, are you showing an improvement?  
You could even share them with your class teacher.
